

## A trip to the space station

Appendix 2  
Worksheet: How the ISS was constructed

1. What does 'ISS' stand for?

- I .....
- S .....
- S .....

2. How much did the construction of the ISS cost?

.....  
.....

3. How many modules does the ISS comprise? What is located in each of them?

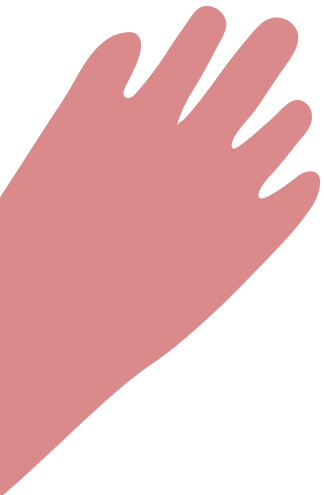

.....  
.....

4. What do astronauts need to survive in the ISS?

.....  
.....

5. How much does the ISS weigh?

.....  
.....

**6. How was the ISS built? Who took part in the construction?**

.....  
.....

**7. When were the first modules of the ISS launched into the orbit?**

.....  
.....

**8. What were the first modules of the ISS called?**

.....  
.....

**9. What problem came up when the modules were being combined? How was it solved?**

.....  
.....
